

Jamil Guliyev

Overview

What is my professional aspiration?

Snapshot of last [N] months:

- [Role, e.g. "JEM'ing" / "Senior BA"] since [Month Year] on [Client] [project type, e.g. "Digital and AI transformation"] in a [team setup, e.g. "1+1" / "EM + 2 BAs"] setup

What are my goals at the Firm for the next 6–18 months?

- Build on my experience leading [workstream/project] and continue stepping up on broader leadership responsibilities, moving towards [next milestone, e.g. "consistently operating at EM level" / "promotion to Associate"]
- Deepen expertise in [functional area/industry] to become a go-to resource for the office on the topic
- Take a more structured role in coaching junior colleagues and contributing to recruiting and office building

What excites me?

- Moving work from strategy and planning into implementation and visible client impact
- Building trusted thought-partner relationships with senior clients
- [Your own: e.g. "Shaping new opportunities with clients and seeing them turn into follow-on work"]

What are my strengths?

- Manages Work/Projects: [Strong ownership of delivery, prioritization and stakeholder alignment across ...]
- Solves Problems: [Structures ambiguous problems quickly and turns analysis into clear recommendations ...]
- Counsels Clients / Builds Relationships: [Trusted counterpart to senior stakeholders, incl. regular engagement with ...]
- Communicates Effectively: [Develops clear, decision-ready materials for senior audiences ...]

What office/Firm contributions energize me the most?

- Supporting recruiting and coaching candidates, helping attract strong talent to the Azerbaijan and Türkiye offices
- Building AI capabilities across the Firm and with clients as AI Black Belt faculty and trainer

How have I contributed to strengthening our Firm this year?

As I Work Toward My Aspiration And Reflect On Previous Development Conversations, How Am I Developing The Relevant Skills And Growing?

Manages Work/Projects

- Since [Month Year], [led / JEM'd] [project], owning the full delivery rhythm while leading [N] [BA(s)] internally and a [N]-person client-side team ([e.g. PMO, data scientists, functional experts]); this created a stable execution model across [workstreams]
- Structured and sequenced [N] [use cases / initiatives / workstreams] with [client/vendor], pushing for faster execution and clearer priorities; this moved [N] of them to [status, e.g. "implementation-ready"] and set a realistic path for the remainder of the year
- Set up [governance / tracking mechanism, e.g. "KPI tracker and weekly performance dialogues"]; this increased accountability in the team and made progress visible to leadership

Solves Problems

- Built [analysis / business case] quantifying [value, e.g. "XX Mn AZN annual impact"] and presented it to [senior stakeholder]; this clarified the economic upside and [outcome, e.g. "secured approval for Phase 2"]
- Analyzed [dataset, e.g. "7k+ firms / 20+ assets"] to identify [insight]; this enabled [decision or action the client took]
- Identified and corrected [gap / error / risk] in [analysis or plan]; this [protected the quality of the final answer / avoided a wrong decision]

Counsels Clients

- Worked with [senior client, e.g. "the Deputy Minister / CEO"] on a [weekly] basis as a thought partner on priorities, progress and decisions; this kept senior leadership aligned and confident in the program
- Led senior alignment on [topic] with [stakeholders]; this created a single leadership-backed roadmap and resolved [the confusion / disagreement on ...]

Communicates Effectively

- Led the team in producing [weekly steering documents / N+ CEO- or Minister-level packs]; this improved decision quality and visibility on progress and bottlenecks
- Independently facilitated [N]+ [workshops / focus groups / playback sessions] with [audience]; this [outcome]
- Prepared materials presenting results to [broader stakeholders, e.g. "other ministries / Board"]; this broadened support for the work beyond the core client team

Builds Client Capabilities

- Delivered an AI training to SOCAR Upstream middle management, covering what AI is, how it can optimize their day-to-day work, and which tools are already available to them; this built a practical foundation for AI adoption at the client and positioned the Firm as a thought partner on AI
- Onboarded and coached the client team on [tool / methodology]; this enabled them to [run it independently / present findings without McK support]

Demonstrates Entrepreneurship

- Shaped the next phase of [project], supporting development of the LOP and proposing [new topic, e.g. "agentic AI use cases"]; this helped expand scope and impact for the client

Builds Expertise

- Served as faculty for the AI Black Belt training for BAs and Associates, and will next deliver the same program to EMs, Associate Partners and Partners; this helps scale practical AI fluency across all tenure levels and established me as a go-to resource on AI in the office

Enriches Firm Talent

- Led the office recruiting event for ~40 prospective candidates for the Azerbaijan and Türkiye offices, joining from across the world, by running a live demo case and coaching participants on how to structure and approach it; this strengthened the candidate pipeline and gave candidates a clear view of what the Firm looks for
- [If applicable: Supported recruiting through N+ HR screening / Round 1 interviews]

Apprentices Others

- Coached [N] junior colleagues through [regular feedback / structured catch-ups] on [topics]; this [accelerated their ramp-up / helped them act on development needs]

Upholds Values

- Built the office per-diem compliance report and run it every two months, reconciling direct billing and Wolt data against the 150 AZN per-diem limit and flagging colleagues who exceed it, who then receive a notification; this gives the office early visibility on overspend and lets it be corrected before audit, reinforcing adherence to Firm expense policy
- Balanced a demanding delivery agenda with attention to team sustainability through regular check-ins and feedback sessions

Who are my mentors/sponsors at the Firm?

[List as "First name + last initial", e.g. "Sinan K., Murat G., ..."]

Looking Ahead

[Development dimension 1, e.g. Apprentices Others]

- [What you want to build and how, e.g. "Coach junior colleagues in a structured way within the project, practicing how I structure and delegate tasks and adapt to different working styles"]

[Development dimension 2, e.g. Demonstrates Entrepreneurship]

- [e.g. "Play a more active role in shaping new opportunities with existing clients, moving from supporting LOPs to leading the problem definition"]

What support do I need from my mentors/sponsors and the Firm?

- [e.g. "Feedback on how to strengthen my leadership style as I take on more EM-level responsibilities"]
- [e.g. "Staffing on a project with a larger team / in a new industry or geography"]

Will this plan give me energy and how can I make it sustainable for me, both personally and professionally?

Yes. [Why it energizes you, e.g. "The work combines leadership, visible client impact, problem solving and colleague development."] [How you keep it sustainable, e.g. "I will proactively schedule 1-1s with my mentors and protect time to re-energize."]

[Optional] Additional Considerations

What are the top 3 topics, if any, I would like to discuss with my DGL?

- [Topic 1, e.g. "What should I focus on to be ready for the next tenure milestone"]
- [Topic 2]
- [Topic 3]
